TOTAL ENERGY SUMMER SCHOOL 2016

Working with students and educators to develop energy leaders and experts for the future

University Communications Pack

Total Education
February 2016
THE TOTAL ENERGY SUMMER SCHOOL
THE FUTURE OF ENERGY STARTS WITH YOU

The Total Energy Summer School for 80 students and 40 professors will take place from 10 thru 13 July 2016 in France, and we’d like your students to be involved.

By participating students will:

• Learn more about the energy industry and broaden their horizons
• Develop their personal skills, share knowledge, ideas and prepare the innovations of tomorrow
• Work with students, faculty and industry from all around the world
• Join a long term talent pipeline, a dynamic energy industry network

To Note:
Expenses: All costs related to participants’ travel to and stay in France (incl. visa cost) are covered by Total

For all applicants: A key module of the seminar will be available online to involve all the interested students
THE EVENT

--- LOCATION & PARTNERS ---

A Heritage Site

Fontainebleau, 60 km from Paris, has strong energy industry links and a dynamic education sector.

A Campus Feel

An innovative learning and creative space for a dynamic & interactive programme
STUDENT SELECTION PROCESS

1. Students from our Partner Universities are encouraged to apply

2. Students register online and complete profile, motivation statement and quiz on http://www.total-campus.com

3. Students are short listed based on their academic profile, motivation & quiz results

4. Short listed candidates must provide a CV and a recommendation letter from a professor at their current university for Total to make a final selection

5. Selected candidates will be contacted and invited directly by Total

The online application process opens on 29 February and closes on 15 April 2016, however places are limited and students should apply as soon as they can.
MATERIALS AVAILABLE

To make the most of this unique opportunity we have made the following documents available:

1. Flyer
